**Re: Ntityix Resources LP – Westbank First Nation – 2023 Information Sharing Package**

Dear Mayor and Council:

I am pleased to provide you with our 2023 Information Sharing package. This package consists of maps and a table (at the end of this letter) showing the location of the proposed new roads and cutblocks on Westbank First Nation's (WFN) Community Forest and Replaceable Forest Licence.

Attached are:

- 1) Three maps showing the locations of our proposed cutblocks and roads
  - Lacoma Lake
  - Pennask
  - Hidden Creek
  
- 2) A KMZ file showing the location of all our proposed blocks and roads.

Our blocks as well as those of other licensees in the Okanagan TSA may also be viewed using this link <https://maps.forsite.ca/oktsa/> . WFN cutblocks are outlined in pink.

Hardcopies of these maps can be viewed at our office during regular working hours (from 8:30am to 4:30pm) or can be viewed on our website at <https://www.ntityixresources.com/information-sharing/> under the title "Annual Referral Maps".

This letter is intended to provide you with an opportunity to review this package and provide any comments as to how these proposed activities may impact your interests. We look forward to any comments you wish to provide and will be accepting them until May 16<sup>th</sup> 2023.

If you have any questions regarding this package or WFN's forestry program feel free to contact the undersigned at 250-768-5617 or by e-mail at [dlawrence@ntityix.com](mailto:dlawrence@ntityix.com).

Your truly,

Damon Lawrence, RPF  
Development Forester

## Westbank First Nation – 2023 Information Sharing Blocks

CP	Block	Location	Net Area (ha)	System
60	341	Lacoma Lake	22.8	Patches, ~5ha's
